

Scale the heights of data growth

Join Hitachi Data Systems and AE Business Solutions as we take **IT** to the Next Dimension

Tiering storage, reducing backups and archiving data - these are on every Data Center Manager's wish list. Now one platform can deliver them all.

Hitachi Content Platform is an intelligent, feature-rich storage platform that supports multiple workloads, storage tiers and content types to efficiently manage unstructured data.

It is designed to meet your developing data needs today, and is fully cloud ready for the data center of tomorrow.

Join us for lunch and learn how our Content Platform enables you to:

- Embrace cloud at your own pace
- Provision data to lower-cost disk for unprecedented cost efficiency
- Significantly reduce backup times and minimize the risk of backup failure
- Reduce backup cost by up to 65%
